I. INTRODUCTION

This manual is a compilation of Defense Department officer and enlisted occupational specialties and Civil Service "white collar" and "blue collar" occupations under two similar occupational grouping structures. The first structure contains enlisted occupations, certain occupations in the General Schedule (GS) series, and most wage board occupations; the second structure contains commissioned and warrant officer occupations, the remainder of the GS occupations, and a few wage board occupations.

These two structures are documented in the tables that follow the introductory material. The third tabular section is an index, organized by occupation within Service/Civil Service. For each occupation, a corresponding title is displayed, along with the DoD Occupation code to which it is assigned.

This manual is intended to serve as an occupational coding structure, designed to group similar occupations from one or more populations into a logical and consistent structure suitable for a variety of analytical purposes. Some of these include serving as a guide to the Office of the Secretary of Defense in manpower management and policy planning, to the Military Departments for various personnel administration functions, and as a basis for statistical reports. The enlisted section catalogs military and civilian occupations into 10 one-digit areas, 68 two-digit groups, and 160 three-digit subgroups. The officer section places military and civilian occupations into 9 one-digit occupational areas and 66 two-digit occupational groups.

The January 1987 edition of this publication is now obsolete.

II. TECHNICAL NOTES

(Unless otherwise indicated, the word "Service" should be taken to include Civil Service as well as the Military Services.)

1. The allocation of military and civilian occupational specialties to the various DoD occupational groupings has been based on a careful analysis of the duties of each specialty, as described in the various occupational manuals published by each Military Service and the Office of Personnel Management. While positions with duties and responsibilities that have been judged similar are grouped together, these positions are not necessarily identical; they may vary considerably as a result of inter-Service differences in mission, equipment, and concept of personnel utilization and development. (For specific descriptions of the duties and responsibilities of the occupations listed in the Conversion Tables, the user is referred to the aforementioned occupational manuals—see References).

2. Military Officers have responsibilities above and beyond those inherent in any specific occupational specialty. These responsibilities, such as discipline, training, and planning, have not been used as a basis for allocating the officer occupations to DoD groupings.

3. Occupational Groups 1A and 1B in the Officer Tables are of limited value as indicators of the specific occupational content of the jobs within them. The former is intended to cover all jobs which are filled by Officers of General or Flag rank. The latter has a similar limitation with respect to the Marine Corps, as all its full Colonel occupations are placed in this category. The codes in these groups cover a wide range of occupational content and these General/Flag Officer and Colonel positions are filled on a name basis by the Services.

4. The differentiation between Groups 4B and 4C in the Officer Conversion Tables is an arbitrary one necessitated by the Services' utilization of officers concerned with electrical and electronic equipment. Positions requiring electronic and electrical engineers and/or background in these fields are included in both groupings. All such officers whose primary concern is with communications and radar are included under Group 4C; all others are coded under 4B.

5. The absence of any entries for a Service under a particular DoD group or subgroup may indicate one of the following:

(a) The specialty or function does not exist in that Service. For example, there are no dentists (officer Group 6C) or dental care specialists (enlisted Group 33) in the Marine Corps; these functions are performed by Naval personnel for both Services.

(b) The function does exist but is encompassed in one or more occupations classified under another DoD group. For example, the Marine Corps has no entry under DoD Group 2F Tactical Operations Officers, Missiles. This function is included within the duties of MOS 7204, Anti-Air Warfare Officer, which is coded under 2E, Ground and Naval Arms.

(c) Groups of jobs in one Service may not have a distinguishing specialty designation because the nature of the job groups differs from Service to Service. For example, Air Force officers working as Inspectors General (IG)(DoD Group 7L) do not carry an IG code but carry the Air Force Specialty Code for the kind of work they are doing within the IG function.

The following notes refer to both occupational coding systems.

6. Female military personnel are not permitted to serve in combat or combat-related assignments. Where it is possible to link particular military occupations with such combat assignments, these occupations are footnoted in the tables. However, the nature of the occupational coding systems for Air Force and Navy officers does not always permit a distinction between combat and non-combat assignments on an occupation-by-occupation basis. It is possible for a female Naval officer serving ashore to hold the same NOBC as a male officer serving aboard a combatant ship. Thus, while no "closed to women" references appear in the tables for Navy and Air Force officers, the general restriction against combat service nonetheless applies.

7. The following is a brief, general explanation of the Services' occupational codes as they appear in the tables.

Army Enlisted—The military occupational specialty (MOS) code consists of five basic characters, the first three of which are generally sufficient, for the purposes of this manual, to distinguish one specialty from another. The first three characters consist of two numbers and one letter; collectively, they identify the specialty without regard to level of skill. The fourth character is a number which, in combination with the preceding three characters, indicates skill level within the MOS. The fifth character is a letter or a number that identifies special qualifications which are common to a number of positions and MOSs.

Navy Enlisted—Occupations are identified by a two- or three-letter rating designation and/or a more detailed four-number Navy Enlisted Classification (NEC) code. The rating indicates a general field in which the individual has gained expertise. The NEC reflects special knowledge and skills that identify personnel and requirements when the rating structure is insufficient by itself for manpower management purposes. In general, the first two digits of the NEC relate to the rating held by the individual possessing that NEC; the last two digits complete the designation of the special skill possessed. When an occupation in the tables is identified by a two-letter rating designation only, the positions or personnel referred to are those not identified by more specific three-letter ratings or NECs. When an NEC alone is listed (i.e., those beginning with 33, 82 or 83), that NEC may be paired with any of several related ratings. Those NECs beginning with 53, 95, or 99, also shown without a rating, are known as Special Series NECs. They are not related to any particular rating and may thus be awarded to individuals possessing any rating. While these Special Series NECs stand alone as *occupations* and are categorized as such in the tables, it should be understood that the primary qualifications of the *individuals* possessing them are indicated by those individuals' ratings and/or rating-related NECs.

Marine Corps Enlisted—A four digit military occupational specialty(MOS). The MOS describes a group of related duties and responsibilities that extend over one or more grades. The first two digits designate the occupational field (OccFld), the third digit identifies the promotional channel, and the fourth identifies the specialty within the OccFld. MOSs of the 8000-9599 and 9800-9999 groups are used to identify additional skills of individuals and are not necessarily occupationally related.

Air Force Enlisted—A five-digit AFSC, the first two of which indicate career field, and the third and fifth of which indicate further specialization within career field. The fourth digit, often shown in the tables as "X", is indicative of skill level. Those codes running from 99000 to 99107 are called Reporting Identifiers, which identify authorizations or individual airmen that are not identifiable in the classification structure and do not have specialty descriptions written. Special Duty Identifiers, beginning with 99500, identify position authorizations and individual airmen who are performing a group of tasks unrelated to any specific career field.

Army Commissioned Officer—A three-digit specialty skill identifier (SSI), consisting of two numbers and one letter which are used to identify the specialty skill requirements of a position and specialty skill qualifications of officers. Reporting classifications are coded similarly (all begin with the digits 00) and are used to identify General Officers and USMA professors and their positions as well as all officers who are in a non-duty status (students, patients, etc.).

Army Warrant Officer—An MOS code consisting of four characters, which include three digits and one letter, with each providing successively more precise identification of the occupational skills being coded. The three digits define a military occupation, while the letter is used to designate separately definable qualifications within a military occupation because of major systems or skill differences. Reporting codes, analogous to those for commissioned officers, begin with two zeroes.

Navy Officer—The coding structure used for Navy Officers is different for each of the three occupation codes (Primary, Secondary, and Duty). This change to previous editions of the manual was initiated to allow the user to obtain a better picture of the officer's primary qualifications in the Naval Service. Prior editions based Navy officer DoD occupation codes wholly on Navy Officer Billet Codes (NOBC). This is a reflection of the officer's primary function in his current duty assignment and this coding will continue to be utilized in determining DoD duty occupation codes. Coding for the three occupation codes is obtained as follows:

Duty Occupation - A four digit Navy Officer Billet Classification (NOBC), which identifies a group of officer billets that are similar, but not necessarily identical in scope and in nature of duties. When used to identify a billet, an NOBC is a general statement of duties performed to accomplish some part of an activity's mission. When used in officer classification, a NOBC reflects qualifications required as a result of performance in a billet or, in some instances, a combination of experience and education related to the billet's requirements. The first digit of the NOBC identifies the broad occupational field (e.g., Personnel), the second, the group within the field (e.g., Performance), and the third and fourth digits indicate the specific billet classifications within the group (e.g., Corrections Officer).

Primary Occupation - Composed of a four digit Designator and the most current three digit Additional Qualification Designator (AQD-1). The first three digits of the officer designator codes are used to group officers by categories for personnel accounting and administrative purposes. The fourth digit is used to determine the status of the officers in the various categories. Additional Qualification Designator (ADQ) Codes enhance Designator codes by identifying more specifically the qualifications of officers and the qualifications required by a billet or awarded to the incumbent of a billet. The first character of the alpha-numeric code identifies a broad occupational area closely related to the designator. The second character specifies the qualifications appropriate to that occupational area with the third character further defining the specific qualifications.

Secondary Occupation - Composed of the first four digits of the most current five digit Subspecialty Code. The fifth digit states the level of the education/training/experience pertaining to the field and is not used in creating Secondary DoD Occupation Codes. Subspecialty codes define the field of application and additional education, experience and training qualifications needed to satisfy special requirements within an occupational field. Subspecialties are applicable to the Unrestricted Line, Restricted Line, and Staff Corps. They are not applicable to Flag Officer billets nor to Warrant Officer and Limited Duty Officer personnel.

Marine Corps Officer—A four-digit military occupational specialty (MOS), the first two of which designate the occupational field (OccFld). Occupational field 99 consists of identifying and reporting MOSs which are not necessarily occupationally related.

Air Force Officer—A four-digit Air Force Specialty Code (AFSC), the first two of which indicate a basic area called utilization field and the last two of which indicate a particular specialty within that field. With some AFSCs, a letter suffix, called a specialty shred-out, follows the four-number code; this indicates further specialization within these AFSCs. Each AFSC listed in the officer tables has an associated entry level AFSC ending in 1, which is not listed. In addition, certain aviation AFSCs have an associated AFSC ending in 3, also not listed; this AFSC designates intermediate skill level, while the listed AFSC, ending in 5, designates highest skill level. Those codes running from 0001 to 0115 are called Reporting Identifiers, which identify authorizations and individual officers that are not identifiable in the classification structure and that do not have specialty descriptions written. Finally, those codes beginning with 09 are called Special Duty Identifiers, which identify authorizations for and officers assigned to and performing an actual group of tasks on a duty basis. These duties are unrelated to any specific utilization field, and the different Special Duty Identifiers are not occupationally related.

Civilian General Schedule—A four-digit number indicating series, the first two digits indicating the occupational group of which the series is a part.

Civilian Wage Board—A four-digit occupational code, the first two of which indicate a general wage family.

8. The following footnotes appear in the tables:

a—Indicates that occupation is not open to women at time of publication.

b—Indicates a series having no DoD employees at time of publication.

c—"X" indicates a position for which any valid character is acceptable.

d—"XX" indicates positions for which any valid characters are acceptable, except 44 or 75.

e—"XXX" indicates positions for which any MOS except 09D, 09S, 09T or 09W is acceptable.

f—"XX" indicates positions for which any valid characters are acceptable.

g—Indicates that certain officers holding this SSI are also qualified fixed-wing pilots (Group 2B).

h—Indicates that AFSC 272X0D, only, is not open to women at time of publication.

i—Indicates that AFSC P304X4/P30499, only, is not open to women at time of publication.

j—Indicates that NEC 3351, only, is open to women at time of publication.

k—Indicates that NECs 9201, 9203, 9204, 9211, and 9215, only, are open to women at time of publication.

m—Indicates that NECs 9232, 9236, and 9237 only, are not open to women at time of publication.

n—Indicates that AFSC 113X0B, only, is not open to women at time of publication.

o—Indicates that some officers holding this NOBC are qualified as helicopter pilots (Group 2C) vice fixed-wing pilots.

p—The following legend is used in conjunction with Navy Designators, AQD'S, and Subspeciality Codes:

OTH-1 = Any AQD-1 except blanks (refers to Designator 290y)

OTH-2 = ANY AQD-1 except: (refers to Designator 310y/651y/751y)

900-903

905/06/08/43

910/1

916/7

920/1

926/7

933/4

Blank

OTH-3 = Any AQD-1 except: (refers to Designator 131x, 630y)

DAx, DBx, DVx, DWx, DXx, DY0/1/2/3,5, DG5, DT5

a = Any alpha character (A-Z)

x = 0 thru 9

y = 0, 1, 2, 3, 5, 7, 8, 9

qq = 00 or 20 thru 90

z = Any alpha/numeric

q—Indicates Navy Designator is one of the following:

210y or 261y-Physician

220y or 262y-Dentists

264y or 290y-Nurses

230y or 263y-MSC

IV. DEFINITIONS

(Enlisted DoD Occupation Codes)

Occupational Area	**1-digit grouping**
Occupational Group	**2-digit grouping**
Occupational Subgroup	**3-digit grouping**

Note:

Definitions are provided for all Occupational Areas and Occupational Groups; for Occupational Subgroups the title is considered to be sufficient definition.

0. Infantry, Gun Crews, and Seamanship Specialists—Includes individual weapons specialists and crew-served artillery specialists, armor and amphibious crewmen, and specialists in combat engineering and seamanship.

01. Infantry—Includes weapons specialists, ground reconnaissance specialists, special forces, and military training instructors.

02. Armor and Amphibious—Includes land and amphibious tank crews and leaders.

03. Combat Engineering—Includes specialists in hasty and temporary construction of airfields, roads and bridges, and in demolition, field illumination, and chemical warfare.

04. Artillery/Gunnery, Rockets, and Missiles—Includes conventional field, anti-air and shipboard guns and artillery, and rocket and missile specialists.

05. Air Crew—Includes pilots and navigators, flight engineers, and other air crewmen.

06. Seamanship—Includes boatswains, navigators, and other seamanship specialists.

07. Installation Security—Includes specialists who guard weapon systems, defend installations, and protect personnel, equipment, and facilities.

1. Electronic Equipment Repairmen—Includes specialists in the maintenance and repair of various types of electronic and allied equipment, including radio, radar, navigation, weapons, and computers, among others.

10. Radio/Radar—Includes fixed and mobile radio, air traffic and tracking radar; communication, navigation, and electronic countermeasure gear.

11. Fire Control Electronic Systems (Non-Missile)—Includes the maintenance and repair of electronic fire control and bomb navigation equipment, excluding missile and underwater fire control equipment.

12. Missile Guidance, Control and Checkout—Includes specialists in guidance, control and checkout equipment for guided and ballistic missiles.

13. Sonar Equipment—Includes specialists in underwater detection and fire control systems, oceanographic equipment, and related anti-submarine gear.

14. Nuclear Weapons Equipment—Includes specialists in the maintenance and repair of nuclear weapons control and test equipment.

15. ADP Computers—Includes all digital and analog computers.

16. Teletype and Cryptographic Equipment—Includes teletype and associated on-and-off line encryption devices.

19. Other Electronic Equipment—Includes training devices, inertial navigation systems, and electronic instruments specialists.

2. Communications and Intelligence Specialists—Includes the operation and monitoring of radio, radio teletype, radar, sonar and allied communications and intelligence consoles. Also includes the gathering and interpretation of photographic, electronic, and documentary intelligence.

20. Radio and Radio Code—Includes Operators of radio, radio teletype, and visual communications equipment.

21. Sonar—Includes specialists in the operation of sonar and related detection equipment.

22. Radar and Air Traffic Control—Includes the operation of surveillance, target acquisition and tracking radars, fire distribution devices, and air traffic control visual and electronic navigational aids.

23. Signal Intelligence/Electronic Warfare—Includes the intercept, translation, and analysis of foreign communications, and the operation of electronic countermeasures equipment.

24. Intelligence—Includes the gathering, receipt, and analysis of non-signal intelligence data, the interrogation of prisoners, other language translators and interpreters, image interpretation, and specialists in counterintelligence and investigative activities.

25. Combat Operations Control—Includes specialists in forward area tactical operations and intelligence and in command post control activities.

26. Communications Center Operations—Includes the receipt and distribution of messages, the operation of communications center equipment, and the operation of major field communications systems.

3. Health Care Specialists—Includes specialists in patient care and treatment, ancillary medical support, and in technical and related medical and dental services, administration and logistics.

30. Medical Care—Includes all medical care and treatment, surgical, and therapy specialists. Dental care specialists are excluded (see group (33).

31. Ancillary Medical Support—Includes specialists in medical laboratory, pharmacy, and x-ray.

32. Biomedical Sciences and Allied Health—Includes specialists in environmental health/preventive medicine, veterinary medicine, optometry, physiology, diet therapy, medical equipment maintenance and other biomedical science and allied health specialists.

33. Dental Care—Includes specialists in dental care and treatment and in dental laboratory services.

34. Medical Administration and Logistics—Includes specialists in health care, medical logistics and patient administration and management.

4. Other Technical and Allied Specialists—Includes specialists in technical and professional-type skills not elsewhere classified. These skills include photography, cartography, meteorology, ordnance disposal, laboratory analysis, and music, among others.

40. Photography—Includes still, motion, and television cameramen, precision photographic processing, editing and broadcasting.

41. Mapping, Surveying, Drafting, and Illustrating—Includes photomapping, map compiling, drafting, illustrating, and construction and topographic surveying and computing.

42. Weather—Includes specialists in the collection of weather and sea condition data and in weather forecasting.

43. Ordnance Disposal and Diving—Includes the excavation and rendering safe of explosive ordnance and of chemical and nuclear agents, and underwater demolition and other types of diving.

45. Musicians—Includes military bandsmen and special band musicians.

49. Technical Specialists, N.E.C.—Includes physical science laboratory analysts, specialists in memorial activities, safety, NBC warfare, and firefighting and damage control, and other technical specialists and aids such as scientific and engineering assistants.

5. Functional Support and Administration—Includes general administrative, clerical and personnel specialists. Also includes administrative specialists in data processing, information, and related areas, and functional support specialists in areas such as supply, transportation, and flight operations.

50. Personnel—Includes specialists in personnel administration, personnel and manpower management, and recruiting and counseling.

51. Administration—Includes clerks, typists, stenographers and legal administrative specialists.

52. Clerical/Personnel—Includes combined personnel and administrative specialists and senior enlisted personnel whose primary responsibilities are non-technical.

53. Data Processing—Includes computer operators, analysts, and programmers and electric accounting machine operators.

54. Accounting, Finance and Disbursing—Includes audit and budget specialists, disbursing clerks, and other related specialists.

55. Other Functional Support—Includes specialists who provide support in the functional areas of supply accounting and procurement, transportation, flight operations and related areas.

56. Religious, Morale and Welfare—Includes chaplains' assistants and specialists in theater, arts, sports, and related activities.

57. Information and Education—Includes specialists in public affairs, radio/TV, and other types of information and education.

6. Electrical/Mechanical Equipment Repairmen—Includes specialists in the maintenance and repair of electrical, mechanical, hydraulic, and pneumatic equipment.

60. Aircraft and Aircraft Related—Includes aircraft engines, electrical systems, structural components and surfaces, and launch equipment.

61. Automotive—Includes construction equipment and other wheeled and tracked vehicles.

62. Wire Communications—Includes specialists in the installation and maintenance of telephones, switchboards, and central office and related interior communications equipment.

63. Missile Mechanical and Electrical—Includes missiles and missile systems and related components.

64. Armament and Munitions—Includes small arms, artillery, mines, bombs and associated mountings, nuclear weapons, and ammunition renovation.

65. Shipboard Propulsion—Includes marine main engines, boilers and auxiliary equipment.

66. Power Generating Equipment—Includes nuclear power reactors and primary electric generating plants.

67. Precision Equipment—includes optical and other precision instruments and office machines.

69. Other Mechanical and Electrical Equipment—Includes specialists in the maintenance and repair of mechanical and electrical equipment which is not readily classifiable in another group.

7. Craftsmen—Includes the formation, fabrication, and installation of structures and components, the installation and maintenance of utilities, and related trades and crafts.

70. Metalworking—Includes specialists in the machining, shaping, and forming of metal and in the fabrication of metal parts.

71. Construction—Includes specialists in construction trades and construction equipment operation.

72. Utilities—Includes plumbers, heating and cooling specialists, and electricians.

74. Lithography—Includes the making of printing plates, composing, and the operation of offset and letter presses.

75. Industrial Gas and Fuel Production—Includes specialists in the production of liquid oxygen, hydrogen, nitrogen, and carbon dioxide.

76. Fabric, Leather, and Rubber—Includes specialists in the maintenance and repair of leather, rubber, and fabric.

79. Other Craftsmen, N.E.C.—Includes specialists in trades such as molding, camouflage, and plastic work, which are not readily classifiable elsewhere in this section.

8. Service and Supply Handlers—Includes personnel involved in protective and personal services and non-clerical personnel involved in warehousing, food handling, and motor transportation.

80. Food Service—Includes specialists in the handling, preparation, and serving of food.

81. Motor Transport—Includes the operation of wheeled and tracked vehicles (except construction equipment) and railway equipment.

82. Material Receipt, Storage and Issue—Includes specialists in the receipt, storage, issue, and shipment of general and specialized classes of supplies, excluding ammunition.

83. Law Enforcement—Includes military police, protective and corrections specialists, and criminal and non-criminal inspectors and investigators.

84. Personal Service—Includes laundry, dry cleaning, and related services.

85. Auxiliary Labor—Includes unskilled laborers and their supervisors.

86. Forward Area Equipment Support—Includes specialists in parachute packing and repair, in aerial delivery operations, and in flight equipment fitting and maintenance.

87. Other Services, N.E.C.—Includes service specialists who are not readily classifiable in one of the other groups in this section.

9. Non-Occupational—Includes patients and prisoners, students and trainees, and other enlisted and civilian personnel and designators of a non-occupational nature.

90. Patients and Prisoners—Includes personnel holding patient or prisoner designations.

91. Officer Candidates and Students—Includes personnel or authorizations for personnel in training to become commissioned or warrant officers and personnel or authorizations for personnel in a student status.

92. Undesignated Occupations—Includes personnel or authorizations for personnel serving in

duties of a special or otherwise undesignated nature.

95. Not Occupationally Qualified—Includes bootcampers and other personnel in a training status.

V. DEFINITIONS

(Officer DoD Occupation Codes)

Occupational Area	**1-digit grouping**
Occupational Group	**2-digit grouping**

Note:

The term "officer" includes all military occupations and/or billet designators that require persons who are commissioned or warrant officers, and all civilian occupations that are similar to the military occupations/billet designators included here.

1. General Officers and Executives, N.E.C.—Includes all officers of General/Flag rank and all commanders, directors, and planners not elsewhere classified.

1A. General and Flag—Includes all occupations where individuals involved are of General or Flag rank.

1B. Executives, N.E.C.—Includes all directors, planners and executives not elsewhere classified, and all Marine Corps full Colonels.

2. Tactical Operations Officers—Includes pilots and crews and operations staff officers.

2A. Fixed-Wing Fighter and Bomber Pilots—Includes pilots of various types of fighter, attack, and bomber aircraft.

2B. Other Fixed-Wing Pilots—Includes non-fighter and bomber fixed-wing pilots such as those engaged in transport, supply and reconnaissance.

2C. Helicopter Pilots—Includes pilots of various types of helicopters.

2D. Aircraft Crews—Includes navigators, bombardiers, radar intercept officers, and other officer aircraft crew personnel.

2E. Ground and Naval Arms—Includes infantry, artillery, armor and close support officers, and Naval ship commanders and other warfare-related officers.

2F. Missiles—Includes guided and ballistic missile systems officers and unit commanders.

2G. Operations Staff—Includes combat, operations, and intelligence staff officers.

2H. Civilian Pilots—Includes all non-military pilots.

3. Intelligence Officers—Includes strategic, general, and communications intelligence officers, and counterintelligence officers.

3A. Intelligence, General—Includes strategic, general and technical intelligence gathering, analysis, interpretation, and summary.

3B. Communications Intelligence—Includes intercept, analysis, translation, cryptology, and related communications intelligence.

3C. Counterintelligence—Includes installation, area, and other internal and counterintelligence.

4. Engineering and Maintenance Officers—Includes design, development, production, and maintenance engineering officers.

4A. Construction and Utilities—Includes civil engineers, architects, and other construction and utilities officers.

4B. Electrical/Electronic—Includes electrical and electronic engineers and equipment maintenance officers not classified under Group 4C.

4C. Communications and Radar—Includes communications engineers and communications and radar design, installation, operation, and maintenance officers.

4D. Aviation Maintenance and Allied—Includes aircraft maintenance officers and aeronautical engineers.

4E. Ordnance—Includes weapons engineering and maintenance officers, excluding missile officers.

4F. Missile Maintenance—Includes guided and ballistic missile design, test, and maintenance officers and missile engineers.

4G. Ship Construction and Maintenance—Includes officers concerned with design, development, construction, production, alteration, maintenance, and repair of ships and their equipment.

4H. Ship Machinery—Includes officers who perform functions similar to those listed in 4G with respect to ships' main propulsion and auxiliary machinery; also includes officers involved in the operation of such machinery.

4J. Safety—Includes ground, aviation, weapons, and nuclear safety officers.

4K. Chemical—Includes chemical engineers and staff officers.

4L. Automotive and Allied—Includes engineers and maintenance officers whose primary concern is with automotive and related equipment.

4M. Surveying and Mapping—Includes surveying, topographic and geodetic engineers, and cartographic and aerial mapping officers.

4N. Other—Includes engineering and maintenance officers that are not readily classified in one of the previous groups.

5. Scientists and Professionals—Includes physical, biological, and social scientists not involved with health care (see group 6), as well as other professionals such as lawyers and chaplains.

5A. Physical Scientists—Includes physicists, chemists, geologists, and other physical scientists except meteorolgists.

5B. Meteorologists—Includes meteorologists and weather officers.

5C. Biological Scientists—Includes ecology, zoology, botany, horticulture, conservation, and other related scientists.

5D. Social Scientists—Includes historians, economists, socilogists, and other biological scientists.

5E. Behavioral Scientists—Includes behavioral scientists and evaluators who are not part of Service Medical Departments (see group 6H).

5F. Legal—Includes lawyers and legal officers.

5G. Chaplains—Includes ordained and other certified clergymen.

5J. Mathematicians and Statisticians—Includes mathematicians, statisticians, operations research analysts, and other mathematical scientists.
